The following question was submitted and felt to be of interest to all bidders.

Question: It is our understanding from the bid documents that the Commission will be responsible for inspecting and testing the building for hazardous materials (asbestos, etc.) and issue the results of the inspection after the bid opening date, but prior to demolition. The abatement cost, if any, will not be included in the base bid, but negotiated separately.

Please confirm.

We do not see any bond requirements. Are we to furnish a bid bond and if so for how much?

MoDOT Response: That is correct, it is anticipated that there will be little if any abatement cost, however, it is provided in Exhibit C, if that is found to be the case, it will be separately negotiated or handled outside the terms of the request of quotation. There is no bid bond required with this quotation.
